PiFl Labs / PAPER VOYAGES

One small start.

One task. One first step. Your own time box.

Use any timer. This page works without our app.

---

1 / PICK ONE TASK

What will you work on - and what counts as enough?

---

2 / WRITE THE FIRST VISIBLE STEP

An action you can see: open a file, write a heading, read a page.

---

3 / CHOOSE YOUR TIME BOX

Minutes: _____ Start time: _____

Choose a duration that fits you. No perfect length is assumed.

PARK IT FOR LATER

A thought or another task to return to - not a task for this session.

---

4 / WHEN THE TIMER ENDS

Stop, take a break or choose another time box. It is your decision.

My next small step:

Free printable. No app or sign-up required.

Optional iOS timer: Pomodoro at Sea.

App: free download with ads; optional one-time ad removal.
